

WHAT IS A COLLABORATIVE CONSUMPTION

Collaborative consumption is an economic model based on access to products as opposed to ownership. Traditional sharing, bartering, lending, trading, renting, gifting, swapping redefine through technology and peer communities.

**efficiency & trust
makes collaborative consumption
possible**

KNOW MORE ABOUT IT

**JOIN THE COLLABORATIVE
CONSUMPTION COMMUNITY**

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the commission cannot be held responsible for any use which may be made of the information contained therein.

SHARING CONNECTS PEOPLE

**Social networking
BECAME
Service networking**

**Exchange
TIME , GOODS, SPACE, CARS, SKILLS,
MONEY**

**I NEED ----> YOU HAVE
efficiency & trust**

WE SHARE WITH YOU

On the project internet platform you can explore the examples of new lifestyles involving sustainability, technology and friendship and know more about collaborative consumption across Europe;

If interested in more findings about the project please contact the organisation in your country or visit us at:

ABOUT “WE SHARE” PROJECT

“We Share” is a Grundtvig Learning Partnership project and involves 16 partners from different European countries.

Our project promotes new lifestyles, alternative to consumerism that involve sustainability, technology and friendship.

Thanks to an extended European cooperation it is possible to have a larger background and to compare different lifestyles and approaches towards the collaborative consumption across Europe.

Project benefits:

- View of different generations
- Different way to connect with each other
- Different behavior more sustainable for the environment
- Living in a better way
- Rethinking the consumerism
- Giving key competences in new businesses

Project beneficiaries:

- local communities(older and new generations)
- public and private sector;

Project aims to:

- collect good practices in collaborative consumption
- generate guidelines to approach internet resources
- create an internet platform about the world of collaborative consumption
- organise OST meetings(Open Space Technology)
- promote creativity, employability and an entrepreneurial spirit
